PROFESSIONAL SUMMARY

MCA graduate with a strong foundation in Python programming, software development fundamentals, and data processing. Hands-on project experience in Artificial Intelligence (AI), Machine Learning (ML), exploratory data analysis, and Python automation. Proficient in Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), SQL databases, and Git version control. Experienced in developing, testing, and debugging applications within SDLC workflows.

TECHNICAL SKILLS

Programming Languages: Python, Java, C++, C, JavaScript, SQL

Python & Data Analytics: Pandas, NumPy, Matplotlib, Scikit-learn, Joblib

Machine Learning & AI: Exploratory Data Analysis (EDA), Data Preprocessing, Classification, Regression, Model Evaluation

Software Engineering: Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), REST APIs, SDLC, Debugging, Testing

Databases & Utilities: SQL, PostgreSQL, MySQL, MongoDB, SQLite, Psutil, Schedule, OS Module, File I/O, Hashlib (MD5)

Tools & Environment: Git, GitHub, Postman, VS Code, Linux, Maven, IntelliJ IDEA

PROFESSIONAL EXPERIENCE

SetTribe IT Solutions

Feb 2026 – Jul 2026

Software Developer Intern

Pune, Maharashtra

- Developed and integrated core application features, connecting backend REST APIs and relational databases to support system workflows.
- Collaborated in Agile sprint meetings, using Git for version control, code reviews, and maintaining technical documentation.
- Engineered test scenarios and performed systematic debugging and troubleshooting to resolve pre-release software defects.
- Investigated application performance bottlenecks and documented fixes to ensure reliable software delivery.

PROJECTS

Titanic Survival Prediction | Python, Pandas, NumPy, Scikit-learn, Joblib

- Implemented data preprocessing and categorical encoding using Pandas and NumPy to prepare structured data for machine learning modeling.
- Trained a Logistic Regression classification model using Scikit-learn and evaluated performance using accuracy score and confusion matrix.
- Serialized the trained classification model using Joblib to enable model persistence and automated inference on new datasets.

Advertising Sales Prediction | Python, Pandas, Matplotlib, Scikit-learn

- Performed exploratory data analysis and data visualization using Matplotlib and Pandas to analyze feature correlations with sales metrics.
- Executed train-test splitting and trained a Multiple Linear Regression model using Scikit-learn for predictive analytics.
- Evaluated model performance using Mean Squared Error (MSE), Root Mean Squared Error (RMSE), and R-squared metrics.

Platform Surveillance System – Automated Resource Monitoring | Python, Psutil, Schedule

- Developed a Python automation script utilizing Psutil and Schedule to monitor system CPU, RAM, disk, and network utilization.
- Implemented automated process scanning and diagnostic logging to record process metadata including PID, CPU, and memory consumption.
- Integrated robust error handling for system exceptions (NoSuchProcess, AccessDenied) to maintain continuous script stability.

Automated Disk Sanitizer – Duplicate File Detection | Python, OS Module, Hashlib (MD5), File I/O

- Engineered a Python utility for automated duplicate file detection using recursive filesystem traversal and MD5 checksum hashing.
- Processed binary file streams and computed cryptographic content hashes to accurately identify identical files across directories.
- Added interactive CLI cleanup automation to retain single master files while safely removing redundant instances.

EDUCATION

Dnyansagar Institute of Management and Research, Pune (SPPU)

2024 – 2026

Master of Computer Applications (MCA) – CGPA: 7.32

Pune, Maharashtra

C.T. Bora College, Shirur (SPPU)

2021 – 2024

Bachelor of Computer Applications (BCA) – Marks: 73.34%

Pune, Maharashtra

Maharashtra State Board

2021 | 2019

Higher Secondary Certificate (HSC): 75% | Secondary School Certificate (SSC): 76%

Maharashtra
