

PRATIKSHA PARE

Pune, Maharashtra | pratiksha.pare@gmail.com | [linkedin.com/in/pratiksha-pare](https://www.linkedin.com/in/pratiksha-pare)

PROFESSIONAL SUMMARY

MCA candidate with a strong foundation in developing user-friendly web frontends using React.js and Next.js, along with lightweight backend integration using FastAPI and SQLite databases. Experienced in building responsive portals, implementing RESTful API services, and using AI-assisted software development tools (GitHub Copilot) for coding, debugging, and testing. Eager to leverage strong web development skills, adaptability, and interest in AI engineering workflows as a Software Engineering Intern at HARMAN.

TECHNICAL SKILLS

Frontend Development: React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Responsive UI Design, Component Portals
Backend & Databases: Python 3, FastAPI, RESTful APIs, SQLite, MySQL, Schema Design, Swagger/OpenAPI
AI-Assisted Tools: GitHub Copilot, Model Context Protocol (MCP) concepts, AI-Assisted Testing & Debugging
Tools & Environment: Git, GitHub, Postman, VS Code, Linux (Ubuntu), Agile SDLC, Unit Testing

PROJECTS

- AI Tools Portal & Web Frontend Dashboard** | *React.js, Next.js, FastAPI, SQLite, MCP Concepts*
- Developed a responsive web frontend using React.js and Next.js for visualizing internal AI tools and workflow states.
 - Built lightweight REST API endpoints using FastAPI connected to an SQLite database for session storage and logging.
 - Integrated AI-assisted coding tools (GitHub Copilot) to write clean frontend code, unit tests, and documentation.
- StudyTracker – Academic Workflow Portal** | *Python, FastAPI, SQLite, HTML5, CSS3, REST APIs*
- Engineered a web portal backend using FastAPI and SQLite to manage student records, course evaluations, and data streams.
 - Designed RESTful API endpoints with Swagger/OpenAPI documentation and client-side data validation.
 - Utilized AI development tools to accelerate debugging workflows and automate API response verification.
- Task Surveillance & Workflow Dashboard** | *JavaScript (ES6+), React.js, Python, SQLite, REST APIs*
- Designed a modular dashboard interface using React.js and CSS for real-time task tracking and metric visualization.
 - Integrated backend REST API routes and lightweight SQLite query execution for user action logging.
 - Employed Git and GitHub for version control, structured commits, and collaborative code reviews.

EDUCATION

Dnyansagar Institute of Management and Research, Pune (SPPU) <i>Master of Computer Applications (MCA)</i>	2024 – 2026 <i>Pune, Maharashtra</i>
C.T. Bora College, Shirur (SPPU) <i>Bachelor of Computer Applications (BCA) – Marks: 73.34%</i>	2021 – 2024 <i>Pune, Maharashtra</i>

RELEVANT COURSEWORK & AI COMPETENCIES

- AI & Web Engineering:** AI-Assisted Software Development (GitHub Copilot), Web Portals, RESTful Web Services.
- Core Computer Science:** Object-Oriented Programming (OOP), Data Structures, Database Systems (RDBMS), Agile SDLC.
